Internships
Summer 2019
Smart Cities Council

The Smart Cities Council in Reston, Virginia is looking for interns for Summer 2019.

Interns should be interested in the Smart Cities movement, city management, technology in city settings, and agile management.

Areas of internships may be in business development, city outreach, technology deployment projects, depending on the schedule of the Smart Cities Council and the intern’s abilities.

Both paid and unpaid internships are available.
